“ My name is John Soboleski Junior and I went to school with your father at JM Wright technical school... and I'm very sorry for your loss we were in the electrical class together and several other classes but I did not graduate with him... my mother died and my grades suffered and I had to transfer to Darien high school where I graduated... when we were in shop together at the end of the shop we would go into the bathroom and wash up with this big circular sink that had a metal foot pedal... And your father would always try his best to get me “wet” with the water.... I haven't seen him in 50 years but he's probably waiting for me with a bucket of water 💧
